

Mobility Grants

The EU Erasmus-Plus program gives the opportunity for organisations to apply for Mobility travel grants to be used by their staff members for visiting peers abroad. The Ecett central office can help you with the organisation of this.

For information on Erasmus-Plus Mobility grants, ask your Erasmus-Plus National Agency or visit:

http://ec.europa.eu/programmes/erasmus-plus/index_en.htm#/

Ecett Network Grant Conditions

You must work in one of the following sectors: social, education or therapeutic professional fields.

Your organisation should become an Ecett Networks partner.

You must follow the travel procedure established by the Ecett Networks.

LEARNING THROUGH TRAVEL IN HUMAN-CENTRED OCCUPATIONS

KNOWLEDGE EXCHANGE IS KNOWLEDGE
CREATION

Why?

A lot of professionals are being faced with challenges:

- Adapting to a socio-economic context that makes it progressively more difficult to achieve objectives.
- Achieving objectives with less time and resources at their disposal.

By visiting other organisations members are able to gain alternative methods and perspectives, allowing issues to be solved using the experience of other organisations which have had similar difficulties.

Get out of the rut you are in and try something different!

We'll support you to solve mobility and language problems.

You may travel alone or with colleagues

You'll be coached by your helpdesk before, during and after your traineeship

Any questions you may have can be answered by the network!

My Ecett Travel File

Who For?

The Ecett learning Network brings together organisations involved in addictions, social work, youth or education.

There are two ways of getting access to Ecett knowledge exchanges:

1. Your organisation is a member of Ecett Networks This will give you access to the e-learning platform (you can request a log in on www.ecett.eu)
2. If your organisation is not yet a member your Director must sign a partnership agreement with Ecett Networks - details can be found on the website.

How?

We put you in touch with other institutions which have developed good practices in your field. You will arrange your own travel but we will help you to identify the problem you face, formulate the questions you want to be answered and put you in touch with the right host in our network.

We have four basic formulas:

- A. An individual or group takes on a traineeship with another organisation to test the MECETT method.
- B. Individuals take on traineeships and produce a report of good practice.
- C. Three traineeships in three institutions and the presentation of an implementation plan
- D. Implementation of a new good practice within your institution, and receipt of certificate upon completion.

About Us

Ecett Networks organises exchanges of knowledge between professionals through traineeships, using the model of the trade guild system (MECETT Method).

Is your institution ready to exchange good practices?

We have compiled a catalogue of organisations with expertise in human centred professions, including: social work, education, addiction and youth.

Your helpdesk will help you to discover good practices and organise an effective trip.

The network has many partners and is coordinated by a steering committee made up of members from the leading organisations. More information can be found at:

www.ecett.eu
